A non-recoil airplane gun of large calibre is the first subject of the Screen Magazine, Issue No. 26. The preparation of a shad for planking is shown in complete detail by Mrs. A. Louise Andrea, the culinary expert. Then comes the making of a mattress, including all the steps in the production of the bulky article. Artificial incubation of eggs, as it is carried out by the New York College of Agriculture at Cornell University is the next subject. The reel closes with a clay cartoon by Willie Hopkins, the sculptor, called "Sport Fiends."
